Ethnê-MC Update Indices: November 2006—November 2008

The *Update* is a monthly report sent to about 450 email addresses. It contains important member care resources, news, and topics. We especially want to further equip people with member care responsibilities who are focussing on mission/aid personnel in least-reached people groups (LPGs). In addition to the mission/aid emphasis, the reports regularly contain material from the international humanitarian, health, business, human rights, and human resource sectors. Each report is archived at: **www.ethne.net/membercare/updates**

The *Update* is compiled on behalf of the *Ethnê-Member Care Network*. We are a growing *network of colleagues* from different nations and organisations. Our passion is to see the least-reached people groups (LPGs) experience the transforming love of Jesus Christ. We are committed to help provide and develop member care resources in order to support the diversity of people/senders who are working among LPGs. Our *Network* is part of the Ethnê to Ethnê Movement (**http://ethne.net**).
