Dear Delaney,

Many thanks for your update on the global mental health film *Hidden Pictures*, including the screening this Thursday 30 January at the Big Picture movie theater in Seattle, 6pm.

I am cc this to several friends/colleagues in the Seattle/Portland area in hopes that you all (hello everyone!) will be able to attend---and to also ask ask if you could kindly share the news about this event with your colleagues, students, faculty, friends, nets etc.

We screened this fascinating film in October at Webster University in Geneva, and it was great! The film is moving and instructive, probing/journeying into the area of global mental health. Plus Delaney (Seattle area-based MD), if she is not swamped with folks before/after the event--is a delight to talk to (the film director/producer). Tell her hi from us!

it is really worth attending and afterwards there will be a discussion. So do go and get there early! If you are in academia/development work, it can really add relevance to your courses/work. And also it is very relevant as we interact with people in our lives who struggle with a mental disorder.

Here is the link to access the movie trailer (two minutes)--for a quick mental health spin through India, China, South Africa, France, and the USA.

<http://www.hiddenpicturesfilm.com/> Who is hiding, hurting, helping?

More info below too.

Warm greetings,

Kelly and Michele
