Subject: Global Integration update: Supporting your work in mental health/Christian universities

To: Member Care Associates <mcaresources@gmail.com>

Dear colleagues in Christian universities/seminaries and mental health programs,

We wanted to pass on the latest *Resource Update* below about “Strategies for Crossing Sectors.” We encourage you to take the time to look it over carefully as well as to get the electronic or hard copy of the featured book, *Global Member Care: Crossing Sectors for Serving Humanity* (about \$10 and \$20 respectively). This book can also be used as a special text to complement a variety of courses in mental health/psychology. In many ways the title of the book could also be “*Global Humanity Care: New Directions for Sharing our Professional Skills and Life*” as you will see!

We have found the materials to be extremely valuable in understanding our globalizing world as well as helping us to relevantly connect and contribute in new ways as mental health professionals—for our Lord’s glory. Please feel free to contact us!

Warm greetings from Geneva,

Kelly and Michèle
