Ethnê-MC Update

Indices: November 2006—November 2008

The *Update* is a monthly report sent to about 450 email addresses. It contains important member care resources, news, and topics. We especially want to further equip people with member care responsibilities who are focussing on mission/aid personnel in least-reached people groups (LPGs). In addition to the mission/aid emphasis, the reports regularly contain material from the international humanitarian, health, business, human rights, and human resource sectors. Note April 2022--The initial 25 Updates below were compiled by Dr. Kelly O'Donnell and are archived on the Member Care Associates website [HERE](#). Ethne to Ethne produced additional *Updates* from 2009-2011.

Indices: November 2006—November 2008

November 2006	General/Coaching
December 2006	General/Christian Risk

November 2008	Innovations in India: Missionary Upholders Trust

The *Update* is compiled on behalf of the *Ethnê-Member Care Network*. We are a growing *network of colleagues* from different nations and organisations. Our passion is to see the least-reached people groups (LPGs) experience the transforming love of Jesus Christ. We are committed to help provide and develop member care resources in order to support the diversity of people/senders who are working among LPGs. Our *Network* is part of the Ethnê to Ethnê Movement (<http://ethne.net>).
